

Automated Copiers

Standalone Duplicators for Unattended Operation

Microboards Standalone Automated Copiers feature patented gravity-fed automation for consistent loading and utilize the latest recording speeds. These units are standalone, so **No PC is Required!**

MicroOrbit

- Entry-Level Automation
- One-Button operation
- Compact Footprint
- Rugged Robotics
- No PC Required
- Low Price Point
- Single High-Speed Drive

Orbit II

- Easy Interface
- One-Touch, Disc-to-Disc Copying
- Speed Selectable
- No PC Required
- Image Archival
- Track Extraction
- Batch Job Processing
- Reject handling for uninterrupted operation

Gemini

- Two High-Speed Drives
- Batch Job Processing
- 100 Disc Capacity (CD Version)
- 50 Disc Capacity (DVD Version)
- No PC Required

Batch Job Processing	•	•	•
Weight	15 lbs	31 lbs	27 lbs
Dimensions (Inches)	8.5x8x17	10x26x16	16x8x24

Batch Job Processing allows the user to inter-leave master discs with blanks in the input hopper. Each master is read into the hard drive and then copied on to all of the subsequent blank discs until another master is found.

Audio Track Extraction gives the user access to space on the hard drive for storing individual audio tracks from a CD and then creating a custom audio CD of the stored tracks.

Supported Formats:

All Units:
CD-DA (Red Book), CD-ROM
Modes 1&2, XA Forms 1&2, ISO
9660, Photo CD, CD-Extra, Mixed
