technology  
Compact Design  
220 Disc Hopper  
Network Option  
Available  
Affordable

### *Incredibly Accurate!*

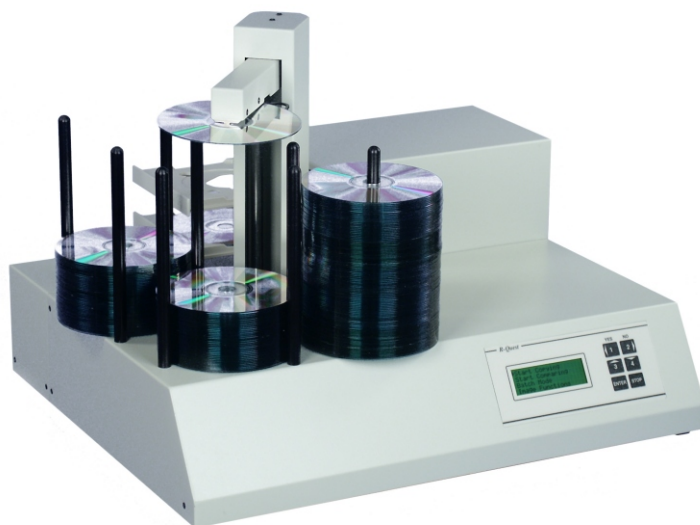

The TCA-9200™ will not only deliver DVD+/-Rs and CD-Rs at ultra-fast speeds, but also the peace of mind that your job will be done correctly in your absence. With reliable robotics, intelligent TrueCopy technology, and a simple menu screen, the TCA-9200™ will allow you to focus on more important items. It automatically detects the master type without any user knowledge of the standards (such as Red Book, Yellow Book etc). In addition, the compare mode allows the DVD's and images to be verified for complete data integrity assurance.

### *Duplication Station!*

Don't let the size of the TCA-9200™ fool you! This is a powerful and professional DVD+/-R/CD-R/RW automated duplicator. As a standalone unit, the TCA-9200™ is capable of copying multiple discs hour after hour without the need for a PC! In fact, with reliable robotics and fast 8x write speeds, you can expect 2 full DVD+/-Rs in less time than it would take you to burn one disc on your PC! Simply load the master and the blanks and the machine will do the rest!

The compact design, smooth robotics, fast recording speeds, and affordable price makes the TCA-9200™ the perfect business solution for all of your duplication needs.

*Desktop  
Duplication!*
